THE AUK

A Quarterly Journal of Ornithology

ORGAN OF THE AMERICAN ORNITHOLOGISTS' UNION

All articles and notes submitted for publication and all books and publications intended for review should be sent to the Editor:

DONALD S. FARNER, *Department of Zoology, Washington State University, Pullman, Washington.*

All persons interested in ornithology are invited to join the American Ornithologists' Union. Application may be made to the Treasurer; dues for Members are \$5.00 per year. "The Auk" is sent without charge to all classes of members not in arrears for dues.

Send changes of address, claims for undelivered or defective copies of "The Auk," and requests for information relative to advertising, subscriptions, back numbers of "The Auk," as well as for other publications of the Union, to the Treasurer: CHARLES G. SIBLEY, *Fernow Hall, Cornell University, Ithaca, New York.*

OFFICERS OF THE AMERICAN ORNITHOLOGISTS' UNION

President: GEORGE H. LOWERY, JR., *Museum of Zoology, Louisiana State University, Baton Rouge, Louisiana.*

First Vice-President: JOHN T. EMLER, JR., *Department of Zoology, University of Wisconsin, Madison 6, Wisconsin.*

Second Vice-President: ROGER TORY PETERSON, *Neck Road, Old Lyme, Conn.*

Editor: DONALD S. FARNER, *Department of Zoology, Washington State University, Pullman, Washington*

Associate Editor: JAMES R. KING, *Department of Zoology, Washington State University, Pullman, Washington.*

Managing Editor: HENRY GROSSMANS, *Office of Publications, Washington State University, Pullman, Washington.*

Secretary: LAWRENCE H. WALKINSHAW, *1703 Wolverine Tower, Battle Creek, Michigan.*

Treasurer: CHARLES G. SIBLEY, *Fernow Hall, Cornell University, Ithaca, N. Y.*

TOM IMHOF Says:
STUDENT OF ALABAMA BIRDS

"*Audubon Field Notes* is an unusual magazine with continent-wide coverage which keeps the bird student informed of changes in the abundance of birds, range extensions, invasions, big flights, migration delays and speed-ups, and almost any type of bird movement, with interesting commentary by experts. A bird student without this information is like a physician without his medical journals, a military commander without intelligence reports, a politician without his 'ears to the ground.' He simply cannot afford to be without it."

440 Park Ave. South
New York 16, N. Y.

A distinguished ornithologist concentrates in this new book on field studies of the living bird — location, identification, and the many facets of bird behavior.

OBSERVATIONS FROM NATURE AND AVIARY

Basic but not "popularized," *Bird Study* offers the keys to understanding song, courtship, nesting, eggs, raising young, migration, and the mysteries of navigation. It covers behavior on a neuroanatomical and hormonal basis, and has a strong section on breeding parasitism.

AND CONSERVATION . . .

A special chapter shows birds as an integral part of their environment, and the vital need for protecting both as a part of the entire conservation picture. Here, the prodigal use of insecticides receives its due. *Bird Study* is a "must" for the ornithologist's library.

WANTED—Complete ornithological library.
