North American Bird Bander welcomes articles and notes, not published in other journals, containing significant knowledge about bird banding or studies incorporating bird banding as part of the project. To assist authors and maintain consistent high quality, manuscripts are refereed prior to acceptance and publication. Manuscripts should be submitted to the editor of the association (EBBA, IBBA, or WBBA) to which the author belongs.

North American Bird Bander

Volume 7, Number 1
January — March 1982

We are very pleased to announce that, beginning with this issue, the Inland Bird Banding Association is joining with the Eastern and Western Bird Banding Associations in the publication of *North American Bird Bander*. Thus, *North American Bird Bander* will in fact, and not just in name, be truly North American in scope and thus reach many more banders in this area. We expect that the increased circulation will attract more authors and manuscripts for this increased readership. The result should be a bigger and better journal and better communication among banders, which — after all — is the principal goal of the respective banding associations.

This is a long and eagerly awaited milestone in the history of bird banding in North America, and we are grateful to all those who have made it possible.

Valerie M. Freer, Outgoing President
Eastern Bird Banding Association

Charles T. Collins, Outgoing President
Western Bird Banding Association

We wish to take this opportunity to welcome Inland Bird Banding Association and its editor, Dr. Jerome Jackson, into the co-production of *North American Bird Bander*.
