

University Libraries Instruction Room Policy

The University Libraries' mission is to support, participate in and enhance the instructional, research, and public service activities of the University of New Mexico. We prioritize service to students, faculty and staff at UNM.

- Use of library classrooms for University Libraries instruction sessions takes precedence over use of the classrooms for any other purpose.
- Library classrooms are generally not for use by groups outside the University Libraries for non-library activities.
- Library classrooms should not be scheduled for regular repeated meetings nor used as a regular classroom.
- Exceptions to these guidelines will be considered on a case-by-case basis. Common exceptions include: UNM intersessions and breaks, high school library instruction scheduled in consultation with UNM librarians, OI&LS courses for occasional class meetings.

Library employees can book classrooms when needed according to the guidelines in this document. The rooms are available via their Outlook Calendars.
